

MOON BROOCH

Pure silver brooch

Design by: Marja-Liisa Okko

The Moon brooch is the result of a lucky accident and a creative mind.

In the shards of a broken teapot, Marja-Liisa Okko found the parts and inspiration for the Moon brooch, a minimalist pure silver design with a strong visual impact.

An opportunity taken in the midst of a mistake, reshaped and refined into a beautiful jewelry. Add an elegant, timeless and minimalistic touch to any outfit with the Moon Brooch.

Moon is designed by Marja-Liisa Okko and crafted by Sebastian Schildt one of Sweden's leading gold and silver-smiths.
